

# 2016 Touareg

Unforgettable refinement.

Engineered to the highest standard, the 2016 Touareg is designed for the driver who expects it all. Every detail has been crafted with the utmost care to deliver a driving experience that knows no boundaries. This is the SUV that lets you navigate the great outdoors with the comforts of the great indoors, thanks to its available premium leather interior and next-generation technology. Its subtle beauty is enough to stop traffic, but its turbocharged engine will keep things moving. That's because the Touareg is so much more than an SUV – it's art with a purpose.

## Key Features

### Available Area View 360°\*<sup>†</sup>

While you keep your eyes on the road, Area View 360° keeps an eye out all around you. With cameras in the front, the rear, and two side mirrors, you can select individual views for more details, even to hook up a trailer.

### Bi-Xenon headlights with Adaptive Front-light System (AFS) and LED Daytime Running Lights (DRL)

In every way, our lights go further. Not only brighter than regular bulbs, the Bi-Xenon lights with AFS turn up to 13 degrees around corners before you do. On top of that, the LED DRL last significantly longer than traditional headlights while consuming less energy.

### Available Lane Assist\*<sup>†</sup>

Whenever the camera recognizes that the vehicle threatens to leave the predicted lane, Lane Assist provides a haptic warning by vibrating the steering wheel.

### Available Adaptive Cruise Control\*<sup>†</sup>

Adaptive Cruise Control is genius. It uses sensors to detect the distance to the vehicle ahead, and then automatically adjusts your speed to always keep you at a safe distance without ever needing to adjust the gas or brake pedals – even in stop-and-go traffic.

### Available Easy Open power liftgate\*<sup>†</sup>

The hands-free power liftgate lets you access the cargo area without ever touching the trunk door, which is perfect when your hands are full of grocery bags.

### Available Side Assist\*<sup>†</sup>

The 2016 Touareg covers all angles. An available Side Assist monitoring system warns the driver of a potentially hazardous situation to the left and right of the vehicle and up to 50 m behind it. We've got your back. And your side.

\*Feature is available on higher trims only and/or as an option. See the Features page for details. <sup>†</sup>Driver assistance feature. Drivers must continue to perform manual checks.

**Sportline (SL)**

**Engine:**

- 3.6 FSI® 280 HP, 8-speed automatic transmission with Tiptronic® 4MOTION®
- Maximum torque: 266 lb-ft at 3,000–4,000 rpm
