Information Required To Provide Service:

To help serve you better, please have the following information ready **before** you call.

1. Your vehicle identification number (VIN) located on your registration, insurance, or outside windshield on the driver's side.
2. Year, model, color, and license plate number of the vehicle.
3. The telephone number from which you are calling or a telephone number where you can be reached.
4. Exact location of your vehicle (street address, and nearest intersection).
5. Type of service required and a brief description of the problem.

In the unlikely event that 24-Hour Roadside Assistance is unable to provide assistance in the geographical area where your Volkswagen is disabled, please follow the instructions outlined in the "Arranging Your Own Assistance" section of this Owner's Guide (page 6).

Roadside Assistance Services

When you call for 24-Hour Roadside Assistance, one or more of the following, as needed, will be provided to you:

Please note, for security reasons Roadside service will not be provided to unattended vehicles — a licensed driver must accompany the vehicle at the time of service.

1. Towing

If your vehicle becomes disabled due to a mechanical breakdown, complimentary towing will be provided to your preferred Volkswagen dealer within 50km or the nearest authorized Volkswagen dealership or authorized service center.

2. Battery Jump Start

A service operator will be dispatched to provide a jump start. If your vehicle cannot be driven safely, towing services will be provided.

3. Flat Tire Change

If your vehicle has a flat tire, a service operator will attempt to remove it and install a spare tire. If you don't have a properly inflated spare tire or if the spare is not safely operable, towing service will be provided. The mounting or dismounting of special traction devices including chains, as well as repairing a flat tire, is not covered under this program.

4. Emergency Gasoline Service

If you happen to run out of fuel (gasoline), an emergency supply of gasoline will be delivered to get you on your way. Both the delivery service and the emergency supply of gasoline are complimentary.

Note: For TDI customers who have run out of diesel fuel, towing will be provided to the nearest authorized Volkswagen dealership or authorized Volkswagen service facility.

5. Lock-Out Service

If your keys are locked inside your vehicle, 24-Hour Roadside Assistance will attempt to assist in getting you back on the road.

Note: If you have lost your keys, contact your Volkswagen dealer immediately for further assistance.

At your request, a service operator may be dispatched in an attempt to gain entry into your vehicle, to retrieve your keys. However, you are solely responsible for any loss or damage resulting from this entry attempt. If access into your vehicle is unsuccessful, it will be towed to the nearest authorized Volkswagen dealership to gain entry. **This tow will be at your own expense.** The costs for parts and/or labor to produce replacement keys are **not included** in this service.

To provide added security for the vehicle owner, registration papers and personal photo identification will be requested at the scene.

6. Extrication/Winch Service

24-Hour Roadside Assistance will cover the cost of extricating your vehicle from any ditch, mud, sand, or snow, provided it has become disabled in an area immediately adjacent to a regularly traveled road which can be serviced with standard automobile servicing equipment.
