At Volkswagen, we believe everyone should experience German engineering. That’s why we designed the 2016 Jetta to marry executive performance with an entry-level price tag, giving you incredible value for your hard-earned dollar. Look under the hood and you’ll notice we replaced the 2.0L engine with a more lightweight, more powerful, and more fuel-efficient 1.4 TSI® engine. Step inside and you’ll find premium features like the standard rearview camera, and the touchscreen infotainment system. Your next adventure is waiting. Start the ignition to get it started.

**Standard rearview camera**††
We concealed a tiny camera on the back of the car, to help you see things that are hidden behind you. Like, for instance, someone who can’t stop staring at your Jetta.

**Available Bi-Xenon headlights with Adaptive Front-light System (AFS)**
In every way, our lights go further. Not only brighter than regular bulbs, the Bi-Xenon lights with AFS last significantly longer than traditional headlights while consuming less energy.

**Available Blind Spot Detection with Rear Traffic Alert**††
Check your surroundings safely and easily. Whether you’re changing lanes or in reverse, your Jetta is always looking out for you.

**Available 1.4 TSI® engine**
Everything about our 1.4 TSI® engine is better than its 2.0L predecessor. It’s more lightweight and more powerful. It boasts impressive horsepower and impressive torque. And to top it all off, it’s incredibly fuel-efficient. It’s a revolutionary engine for a remarkable value.

**Available Composition Media infotainment system**†
The Composition Media infotainment system in the Jetta is truly a work of art. With a 6.33” colour touchscreen, it provides high-resolution graphics and lets you play your favourite digital music files, the radio, and more. Plus, it integrates with App-Connect, so you can stay focused on the road ahead.

**Available App-Connect**†
Think smart, with App-Connect, using either Android Auto™ from Google®, CarPlay™ from Apple®, or MirrorLink™. Its intuitive interface and powerful voice command actions let you easily search online for songs, directions or even your favourite restaurant, so you’ll keep your eyes on the road, and not on your screen.
# 2016 Jetta > Features

## Trendline (TL)
